The SK series is composed of automatic shrink wrapper machines for packing plastic, metal or glass containers. Depending on the model chosen, they can make packs in film only, cardboard pad + film, tray only, cardboard tray + film.

The SK series packers can achieve an output up to **45 packs per minute** depending on the product to be packaged. The pack collations can vary according to the container shape and size. In general, the most frequently requested collations are: 2x2, 3x2, 4x3 and 6x4.

All SK models are equipped with an electronic grouping device and are available with single. The change-over is automatic.
